CRA - NETFILE Access Code

For the 2024 tax year, prior to filing your tax return electronically, you will be asked to enter an **Access code**. This code does not apply to you if you are filing your tax return for the first time.

Your unique Access code can be found on your Notice of Assessment (NOA) for a previous tax year. This eight-character Access code is made up of numbers and letters and is located on the **right** side of your NOA. The placement and labelling of the Access code differs slightly depending on the version of the NOA you are looking at, but will always be on the right side of the NOA.

On the paper version of your NOA as well as the PDF version in My Account, the Access code is not labelled, but can be found directly underneath the **Date issued** at the top right of the page. If you are viewing your NOA in My Account or using the Express NOA service in certified tax software, the Access code is found directly under the **Notice details** box at the top right of the page.

You will have to enter your Access code after your name, date of birth, and social insurance number. While this Access code is **not mandatory**, if you do not enter your Access code, you will not be able to use any information from your 2024 tax return when confirming your identity with the Canada Revenue Agency. You will have to rely on other information for authentication purposes.

If the Canadian-source income you are reporting for the part of the year you were not a resident of Canada **is at least 90%** of your net world income for that part of the year (or if you had no income from sources inside and outside Canada for that part of the year), you are **eligible to claim the full value** of deductions and credits on your tax return.

Otherwise your deductions and credits must be prorated by the time you resided in Canada. The program will decide if you are eligible for the 90% rule based on the information you enter here.

Note

If you are claiming full federal non-refundable tax credits, **attach a note to your tax return** stating your net world income (in Canadian dollars) for the part of the year that you were not a resident of Canada. Show separately the net income you received from sources inside and outside Canada for that part of the year. The CRA cannot allow full federal non-refundable tax credits without this note.

You have to enter the following two income, the **Canadian sourced income (excluding Part XIII income) earned when you were not a resident of Canada** and the **Canadian source Part XIII income PLUS foreign sourced income earned when you were not a resident of Canada**.
